INDEX

Introduction *by Cardinal José Tolentino de Mendonça* 7

Presentation of the Research, *Anna Maria Tarantola* 15

GENERAL ISSUES

The Spark Machines Cannot Strike: On Creativity and Computational Generativity, *Andrea Gaggioli* 25

Artificial Intelligence and Socioeconomic Gaps: A Discussion of Challenges to Integral Development, *Alejandra Marinovic* 43

Less Visible Risks of AI-based Technologies: the Civilizational Threat of Discursive and Epistemic Dysfunction, *Edgar Lyra, Clarisse de Souza* 63

Social Persons and AI: Striving to Promote the Common Good, *Andrea Vicini SJ* 77

ECONOMY & INDUSTRY

Social Animals, Social Machines: The Rise and Risks of the Companion AI Industry, *William Hasselberger* 95

Artificial Intelligence and its Impact on Income Inequality – Public Policy Choices, *Josef Bonnici* 113

The Future of Artificial Intelligence: Towards the AI-Organisation, *Xavier Ferràs-Hernández* 129

The Economics of AI vs. AI and the Economy: What's News, What's Not, and Why It Matters, *Mario A. Maggioni* 151

FINANCE

AI and Accountability in the Financial Industry, *Elena Beccalli* 171

A Financial Law Analysis of the EU AI Regulation: Economic Rights as the Missing Link to Social Wellbeing, *Giulia Schneider* 181

The Impact of Artificial Intelligence in the Banking Sector, *Andrea Cosentini* 199

COMMUNICATION

Artificial Intelligence: Towards a World Where It Will Become More and More Difficult to Distinguish True from False. Which Consequences for Human Beings and for Society? *Giacomo Mazzone* 223

Beyond AI: The Risk of Polarisation, Disinformation and Disruption, *Elisabet Golobardes Ribé* 241

EDUCATION

The Impact of AI in Higher Education and the Consequences for the Leaders of Tomorrow, *Danielle Morin* 265

REGULATION

Challenges of Laws and Regulations concerning Generative AI, *Tetsuo Morishita* 287

CONCLUSIONS

A Provocation: How Can We Create an Ethical AI, Grounded in Real World Evaluation, and Prepare for AGI? *Mirella Mastretti* 307
