

INDEX

Preface <i>by Marco Caselli</i>	9
Introduction <i>by Giampiero Carosi</i>	13
Chapter 1	
<i>Updates on HIV infection</i>	17
1. Epidemiology and classification	17
2. Neurological complications	25
3. Respiratory complications	31
4. Updates on prevention and therapy	36
Chapter 2	
<i>Tuberculosis</i>	45
1. Epidemiology and clinical aspects	45
2. Updates in diagnosis of latent TB infection	49
3. Updates in diagnosis of tuberculosis disease	52
4. Updates in treatment of drug-susceptible and drug-resistant TB cases	53
Chapter 3	
<i>Malaria</i>	59
1. Epidemiology and clinical aspects	59
2. Updates on treatment	66
Chapter 4	
<i>Viral haemorrhagic fevers</i>	77
1. Filoviridae	78
2. Arenaviridae	85
3. Flaviviridae	89
4. Bunyaviridae	95

Chapter 5	
<i>Sepsis</i>	107
1. Introduction	107
2. Epidemiology	109
3. Pathophysiology	112
4. Clinical presentation and recognition	114
5. Management	116
Chapter 6	
<i>Infections of the central nervous system</i>	123
1. Meningitis	123
2. Encephalitis	135
3. CNS tuberculosis	139
Chapter 7	
<i>Infectious foodborne diseases</i>	141
1. Introduction	141
2. Epidemiology	141
3. Clinical presentation	142
4. Complications	157
5. Diagnosis	159
6. Therapy	160
7. Prevention	163
Chapter 8	
<i>Focus on significant infections in pregnancy</i>	167
1. Zika virus infection in pregnancy and newborn	167
2. Urinary tract infections in pregnancy	170
3. Tuberculosis in pregnancy	175
4. Trichomoniasis in pregnancy	178
5. Syphilis and pregnancy	180
6. Tetanus in pregnancy and newborn	182
7. Rubella	186
8. Chlamydial infection in pregnancy	188
Chapter 9	
<i>Viral hepatitis</i>	197
1. Hepatitis A	198

3. Hepatitis C	228
4. Hepatitis E	243

Chapter 10

<i>Bone infections</i>	261
1. Osteomyelitis	261
2. Skeletal tuberculosis	274
3. Mycetoma	278

Chapter 11

<i>Immunizations</i>	289
1. Meningococcal vaccination	291
2. Pneumococcal vaccination	292
3. Diphtheria, tetanus, and pertussis vaccination	293
4. Haemophilus influenzae b vaccination	293
5. Measles, mumps, and rubella vaccination	294
6. Hepatitis A vaccination	294
7. Hepatitis B vaccination	295
8. Polio vaccination	295
9. Influenza vaccination	295
10. Typhoid fever vaccination	296
11. Cholera vaccination	296
12. Yellow fever vaccination	297
13. Dengue vaccination	301
14. Japanese encephalitis vaccination	301
15. Rabies vaccination	302
16. Tick borne encephalitis vaccination	304

Chapter 12

<i>Use of antibiotics in Tropics areas</i>	307
1. Meningitis	307
2. Pneumonia	311
3. Urinary tract infections	312
4. Soft tissue infections	314
5. Osteomyelitis	319

Chapter 13

<i>Role of diagnostic laboratory in limited resources Countries</i>	323
---	-----

2. Laboratories and Public health	323
3. Essential diagnostic tests in lower income areas	324
4. Quality in the laboratory	328
5. Laboratory services in lower income settings: the case of Uganda	330

Chapter 14

<i>Role of ultrasound in limited resources Countries</i>	335
1. Liver	336
2. Gallbladder and bile ducts	338
3. Spleen	339
4. Pancreas	339
5. Kidneys and urinary tract	340
6. Genital tract	341
7. Lymph nodes	342
8. Gastrointestinal tract	342
9. Peritoneum and ascites	343
10. Heart and pericardium	344
11. Lungs and pleura	345

Chapter 15

<i>Africa and COVID-19</i>	357
